### Hong Kong Report Debate

By GRANT DENTON

Edmonton Bulletin Bureau

OTTAWA, July 18.—The debate on the Duff report, despite the lateness of the session, promises fireworks. Many people regard the report as a whitewash. It is true that the chief justice failed to find that the Hong Kong expedition had been either ill-conceived or badly managed. It is also true that he severely censured the quartermaster general's branch of the national defence department because lack of energy and initiative in moving the equipment for the expedition to Vancouver.

## Martell Again Enters Final In Title Golf

For the sixth time in seven years, Henry Martell entered the final of the Alberta amateur golf championship when he defeated Norman Lee six and five this morning at Mayfair Golf and Country Club.

Martell has held the Alberta title five times during the past six years, and is a heavy favorite to retain the crown in Sunday's 36-hole at Mayfair.

At press time, it looked as if Pete Olynk would be Martell's opponent in the final. Pete was two up on Bill Tait of Calgary at the 14th hole.

Both members of the Highland Golf and Country Club, Martell and Olynk have met several times already in finals for city and club championships. In each case Martell has won.

In defeating the veteran Norman Lee, Martell was one under par for the first time, and even par for the four holes of the second nine, where the match ended.

### Hong Kong Report Debate

By GRANT DENTON

Edmonton Bulletin Bureau

OTTAWA, July 18.—The debate on the Duff report, despite the lateness of the session, promises fireworks. Many people regard the report as a whitewash. It is true that the chief justice failed to find that the Hong Kong expedition had been either ill-conceived or badly managed. It is also true that he severely censured the quartermaster general's branch of the national defence department because lack of energy and initiative in moving the equipment for the expedition to Vancouver.

The report, however, is very carefully phrased and after many promising leads to members who desire to discuss not only the details of the Hong Kong expedition but the army set-up in Canada. It is by no means a whitewash. On the contrary, the report almost invariably qualifies findings which are favorable to the general staff.

A point in the report, hitherto largely overlooked, is that Chief Justice Duff based his conclusions on the evidence of men who had accepted as military experts. The chief justice is Lt. Gen. H. D. G. Crerar, then chief of the general staff and now a corps commander. Others are Gen. A. E. McNaughton and Lt. Gen. Ken Stuart, present chief of the general staff. On vital points such as the inadequacy of army training in Canada and the military situation which our expeditionary force would have to face—the first consideration in designing and selecting the force—there is no question. The report is not prepared to question the judgment of these experts.

WILL PROVOKE CONTROVERSY Nevertheless, the report gives much information which can be used to provoke controversy. It is the general staff's choice of the two battalions the chief justice adds "rather than the chief of the general staff in the same circumstances might perhaps have chosen differently."

The report reveals that Lt. Gen. Crerar visited Ottawa en route to England from Hong Kong in the summer of 1941. He has been in command at Hong Kong for two years and gave General Crerar a full report on conditions there. It was General Crerar's decision to send the expedition to Hong Kong.

### Committee Delay On Budget Slows Tax Instructions

By R. T. RICHARDSON

Edmonton Bulletin Bureau

OTTAWA, July 18.—Slow progress by the House in committee stage on budget proposals is delaying preparation of instructions to employers regarding collection of the income tax.

A spokesman at the income tax branch today said no one could say when the material promised to employers would be sent out. But it would be ready speedily when the House has passed the bill. The tax proposals, by which income tax is to be levied on the income tax in September, have shattered vacation plans for many manufacturers and accountants of business.

### Daylight Raid Made On Ruhr By Huge Planes

LONDON, July 18.—(CP)—Great new four-motored Lancasters bombed eastern Germany today, hitting the Ruhr in broad daylight for the third successive day today, and all returned safely despite German fighter opposition.

The number of planes sent over today's "small formation" was not disclosed but an air informant said each carried several tons of bombs.

This source said the continuing daylight attacks upon the heart of Hitler's big industrial areas were designed to knock out vital targets and to harass the Germans when bad weather keeps night raiders at home.

The German fighter opposition, appearing on a large scale than before, was encountered when the Lancasters were on their way home.

The recent order issued by the controller to the effect that no further sorties would be available for the construction or maintenance of public works in the Ruhr, has caused a considerable amount of concern. The unusual heavy rainfall through the entire area of this section has necessitated heavy maintenance costs, especially on hard-surfaced highways. These excessive costs are due almost entirely to heavy oil traffic.

Mr. Fallows's statement follows in full: "The order issued by the controller to the effect that no further sorties would be available for the construction or maintenance of public works in the Ruhr, has caused a considerable amount of concern. The unusual heavy rainfall through the entire area of this section has necessitated heavy maintenance costs, especially on hard-surfaced highways. These excessive costs are due almost entirely to heavy oil traffic."

As a direct result of this traffic, considerable portions of the surfaced highways have already been reduced to their former status of rough gravelled highways and unless something drastic is done immediately to prevent further damage, it will only be a short time until the entire network of surfaced highways has deteriorated to their former unsatisfactory condition.

The revenue from this oil traffic is not commensurate to pay for the damage done to the highways. The government is seriously considering an order prohibiting the operation of oil trucks on any surfaced highway. In any case it has already been decided that the road limit must be greatly restricted.

If these hard-surfaced highways are permitted to disintegrate during the next year or two, it will cost millions of dollars to restore them to their former status and to compensate the owners of every other type of motor vehicle.

The government does not feel that it would be justified in permitting such a condition to exist, and it is therefore considering an order prohibiting the operation of oil trucks on any surfaced highway. In any case it has already been decided that the road limit must be greatly restricted.

## Looking Them Over

By Jack Kelly

RAIN washed out the semi-final rounds of the Alberta amateur golf championship yesterday afternoon at Mayfair, but rain or shine they will be fought out today with the final on Sunday.

Actually play got started Friday afternoon on the semi-finals before the rain started to lash down in torrents. Henry Martell was out on Norman Lee at the sixth and Bill Tait of Calgary was out on Pete Olyak at the fifth when rain officials decided it was no longer possible to play.

Pools of water were standing on the greens and although several cups were moved, putting became impossible.

Play was suspended for awhile in hope that the weather would improve and then was called off together until 6:00 p.m. When that hour arrived the skies threatened another deluge at any moment, the greens were so heavy a ball would hardly move on them and heavy clouds made it so dark that players would have had to spend to get in a full 18-hole match. Everything was accordingly called off until Saturday morning.

All matches will start from the first tee again, the partial rounds of Friday afternoon being discarded.

WHIRLWIND may be the greatest rainy night winner in the history of racing, but it is far from being the greatest horse in the history of the wind. Whirly owns his financial record to the fact that he came

## Red Cross May Get \$25,000

## Walter Hagen Withdraws From Ryder Cup Golf Series

DETROIT, July 18.—(AP)—Walter Hagen withdrew from competition Friday night in the showdown Ryder Cup charity golf series by omitting his name from the foursome pairings of his challengers for the start today of the two-day match with Craig Wood's coppers over the difficult Oakland Hills course.

Hagen nominated Layton Little and Lighthouse Harry Cooper as his top two challengers. Two some and they were matched with Wood's combination of Ben Hogan and Jimmy Brennan.

The other pairings are: Byron Nelson-Ed Dudley (coppers) vs. Henry Purcell-Sid Byrd; Gene Sarazen-Lloyd Mangrum (coppers) vs. Clayton Heffner-Don Ross; Woot-St. Vic Ghersi (coppers) vs. Ralph Guldin-Dick Metz; Horton Smith-Jay McPhaden (coppers) vs. Jimmy Thomson-Al Watson.

Hagen, who had intended to play at least 18 holes, explained he had missed practice because of trips to Rochester, N.Y., where his father, William, is ill. The 40-year-old left young Melvin (Chick) Herbert off the foursome but said he would play in Sunday's singles competition in place of Watson, home pro.

Singles pairings will be announced today. All matches are 36 holes.

The third renewal of the series is expected to yield \$25,000 for the Red Cross. More than \$80,000 was raised when the coppers beat Sarazen's challengers in 1940 and lost to Bobby Jones' squad last year.

## Rolie Hemsley Released By Reds

CINCINNATI, July 18.—(AP)—The Cincinnati Reds have given Rolie Hemsley, one of the club's heavy hitters, a release from the International League to take over Hemsley's place in the Reds when they play in Syracuse on Monday night.

Rolie was purchased by Cincinnati from Cleveland of the American League last December. This season Hemsley has caught in only 30 games and out of 115 times at bat made only 13 hits for an average of .118.

Burma normally exports about twice as much teakwood as any other country.

Battling In The Mud

In spite of the conditions out at the Exhibition track yesterday, both jockeys and horses tried just as hard as ever. Shown at the top in the above layout is the field in the second race just after the get-away. Lie Williams' Homstir, the winner, is the second horse from the left and next on his left is Blare Heath, owned by Mrs. W. Mortimer. New Watminator, who finished third. Golden Sable, H. Pandry, Calgary, with number three shown on Jockey Young's arm, took place position. The lower action shot was taken just as Perfect Prince, with Jockey Freddy Solomon up, and Squaw Broom, ridden by G. Godley, hit the wire in the third race, the camera eye having to be called upon to determine the winner. Also shown above is Mrs. Ralph Wilson, daughter-in-law of C. E. Wilson, president of the Edmonton Exhibition, who presented the floral horse-shoe to Mr. Bo, winner of the "Midsummer Purse," feature race of the afternoon.

## Alberta Swim Titles At Stake Next Saturday

The provincial championship men's and women's mile and junior half-mile for both boys and girls for the Wrigley trophies will be held at South Side pool next Saturday starting at 4:00 p.m.

Norman Atkinson, winner of the Alberta mile in 1937 has been in training for some time and will be the favorite to win. He is a tremendously strong man in perfect shape.

When he rows in the Canadian Henley next week as a member of the Ottawa Rowing Club, he will certainly win. But skill will count for no more than raw strength he built during the greatest mornings and evenings swim training on the Red river at the Winnipeg Rowing Club—his home club.

## Track And Field Entry Forms Ready

Entry forms for the track and field at the Civic Holiday sports at Civic stadium have been ready at Mike's news store for the convenience of any athlete who desires a copy and the sports committee arranged the preliminaries for the day's program reports considerable interest being shown in same.

Groups for the Toddlers and the Kid's group baseball game have been prepared and the request for the old time Baby Street players has been most favorable, according to committee reports.

**Pinch-Hitting for Hugh Fullerton**  
NEW YORK, July 18.—(AP)—See by the papers where Buck Ewing may wind up with the Dodgers. . . can you imagine old Bob hooking up with The Lip and Lou Lary? . . . There's a party for your whiskers. . . When those three mucksters start cooking up some catch-up-salad conversation, the guy who complained about me in the *Edmonton Bulletin* organ made well think he was living in the guest room of a tomb up to now. . . Incidentally the Dodger-Cubs feud is so hot right now the explosion is going to knock down the Wrigley Field walls one of these afternoons. . .

**LOWDOWN BREAK-DOWN**  
The other day, St. Louis Cards announced attendance figures for baseball writers this way: Paid, 2,881; listed, 2,915; boys and girls, 1,801; service men, 122; total, 8,492. . . What, no Mickey Mouse? . . .

America consumes more coffee than any other country in the world.

## Want Situation Clarified

## Ottawa 'Riders Request Football Union Call Meeting

OTTAWA, July 18.—(CP)—The Ottawa Football club decided at a meeting Friday to ask the Eastern Rugby Football Union to call an executive meeting "immediately" to determine whether the Union should continue to operate this season.

The meeting was called following receipt of a letter from J. J. Dolan of Toronto, secretary of the Eastern Rugby Football Union, stating that some of the clubs in the four-team loop may withdraw from the league competition.

Unofficial reports were that Dolan's letter to the Rugby Riders executive was prompted by the government's recent decision to extend the agreement for compulsory military service so as to include single men and children widowers up to 40 years of age.

This ruling was understood to be a decision to extend the agreement for compulsory military service to include single men and children widowers from 20 to 40 might take many players.

"Many of the clubs were counting on young players, now eligible for service," he said.

## New Jersey Resumes Racing

## Garden City Race Track To Open Despite Handicaps

CAMDEN, N.J., July 18.—(AP)—On the theory that anything that happens now must be for the better, the brand new Garden City race track laid in a fresh supply of head-bath tickets Friday—all set to bow in today with New Jersey's first home racing in half a century.

Just about everything but an earthquake has happened in the \$1,500,000 plant on the edge of the New Jersey farmlands. Injunctions were threatened, premises haunted, it transportation is virtually non-existent.

Just to complicate matters, there are no communications facilities on the grounds. . . . In spite of all that, Eugene Mori, an automobile salesman and nearby Vineland, and his associate, the ready to lead the 40-horse team, leading in 2:30 p.m. EDT, to the post at 2:30 p.m. EDT. The opening drive is headed by the \$2,000-odd Camden Handicap, which drew a 12-horse field.

**Cubs Practice**  
Club baseball practice at the Cubs will hold a practice at the Golf Links diamond tomorrow morning, which drew a 12-horse field. Manager Bill McKinlay said that all players be out

## No Rule Against Negro Ball Players In Big Leagues

CHICAGO, July 18.—(AP)—Baseball Commissioner K. M. Landis affirmed yesterday that there is no rule against the hiring of negro players in big-league baseball.

Landis spoke yesterday after Manager Leo Durocher of Brooklyn had been called to his office to explain an article in the *Daily Worker* which said he had hinted that negroes are not permitted to play in big leagues.

"On Tuesday of this week I was sent out because officials felt I had hinted that negroes are not permitted to play in big leagues," Landis said.

"I am not a member of the Ku Klux Klan," he said, "and I am not a member of any other organization." He said the possibility of negroes playing in the major leagues was up to the club owners.

## Sixteen Colts Gallop Today In Arlington Futurity

CHICAGO, July 18.—(AP)—Sixteen of the swiftest two-year-olds in the United States were named Friday to gallop for the winner's share of the \$65,000 Arlington Futurity today.

Warren Wright of Chicago, who won the Futurity last year, hopes on his undefeated Cerebra, a son of Ladymay which won the last ground at the first turn. Janey was not a favorite of the field.

**FIFTH RACE**  
Mr. Bo, quickly raced into a long lead, but was overtaken by the winner, Perfect Prince, who won the race by a wide margin.

**SIXTH RACE**  
Amelberb took command after the start, but was overtaken by the winner, Perfect Prince, who won the race by a wide margin.

## Final Race Card This Afternoon

The sloppy going certainly didn't bother Mr. Bo, the entry of C. C. Kelly of Tavo, N.D., in Thursday's feature of the Edmonton Exhibition's race card. The six-year-old chestnut just took the lead without any formalities at the start and won with ease.

Final races of the meet and for the season, so far as this city is concerned, are being held this afternoon—rain or shine—starting at 2:30, the usual time.

There was a surprisingly good crowd out yesterday and the mud made it a real battle. The race, however, was just the proverbial sea of mud and water and all jockeys and horses with the possible exception of those fortunate enough to have always been in front, looked alike at the finish.

The race though were good with the riders battling first to the wire and in the third the winner could be decided without the photo finish facilities. Perfect Prince, with Jockey Solomon up, was awarded first place over Squaw Broom.

Red shots and favorites had just about an even break on the day. Top rated of the afternoon was the \$19 for nose bets on Lie Williams' Homstir in the second half of the daily double.

W. Sadler's Somers Tangle had won the first race and had a return on straight tickets of \$100 and as a result the daily double was fairly high—\$107.30, second best of the week. There were 20 complete tickets out and the pool was \$2,336.

Mr. Bo got most of the play in featured fifth for the "Midsummer Purse" and he justified the confidence reposed in him by romping to an easy victory, his long stride giving him considerable advantage over the rest of the field. The Club owned by Dr. E. T. Myers of Roseburg, Ore., was second, and Jockey E. Hovens, Crawford, came in for the show money.

Whitaker, owned by T. J. Southwood, of Calgary, evidently liked the track for the quarter, for he took over right at the start and stayed there. Lanky Lie Williams' gelding, gelding, made a great finish to claim the place position after running third most of the race.

Murphy was third and Madam Squaw Broom, ridden by J. J. Godley, finished fourth. The Madam's jockey had been in for the quarter, but he didn't get the start and he didn't get the start and he didn't get the start.

## GERMANS FEAR UNITED NATIONS' BOMBERS

## Berlin Hides Under Camouflage As Air Raids Grow

All around the coasts of Britain, mine sweepers, manned by fishermen like this sailor, left, decorated with presents for Hitler, keep constant patrol seeking and destroying mines which endanger vital shipping. Typical of thousands of U.S. youths who answered their nation's call is this husky member of the coast guard, wrapped in a bandolier of death-dealing bullets. He's a man of the sea, a symbol of fighting men of a fighting nation.

In order to prepare for huge daylight raids by United Nations bombers, that may come at any moment, Berlin has covered many important buildings and streets with camouflage. Here, shown in upper picture, an East-West traffic artery has been covered for miles with netting, to which has been attached fresh green "twigs" and "leaves". Occasionally, as over the street (left to right, centre of photo) at this post, little "spruce trees" have been fastened in neat, orderly rows. Note hoods over street lamps. From the air this camouflage would give the artery, once a gleaming ribbon through the heart of Berlin, the appearance of a forest. Lower picture shows camouflaged exposition halls on the Kaiser-damm in Berlin.

Slightly mixed as to garb is attractive Nadia Petrova, Russian film find, who invades Hollywood in a Mexican peasant ensemble.

Pilot Officer H. V. Peterson, of Calgary, who has been awarded a bar to his D.F.C. for bringing home a damaged plane after a 1,000-bomber raid despite temporary blindness in one eye caused when a piece of flak shattered his windshield. He was the third graduate of Brantford training school to be given the D.F.C., which he was awarded for work over Trondheim.

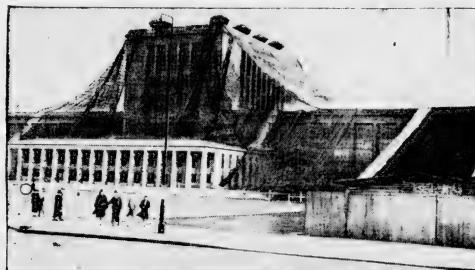

## Airplane Propellers Are Balanced To The Weight Of A Small Cork Here

☆☆☆ ☆☆☆

Mighty Blades Made With The Precision Needed For A Watch

Since the start of this war Canadian industry has tackled and solved many problems of production and, as a result, many items never before manufactured in Canada are now being turned out in large quantities. One of these is the constant speed propeller, which is a mechanical work of art requiring rigid balance tests in all stages of its manufacture. In the photo at right a technician checks the balance of a blade in upright position, while, at left, a completed metal airscrew undergoes its final inspection. Small cork and lead weights are used for the final test. If perfect balance has been achieved their weight is sufficient to start the propeller revolving. A new plant, built and fully equipped in less than one year, is now producing metal propellers by the hundreds.

## One Family Contributes Full "Production Unit"

Practically a shift in themselves are the seven Wells sisters, all employed in the same British war factory. From the youngest to the eldest, they are engaged in production of war essentials. They are shown working on the wire-strand machines. Left to right: Kitty, 27; Violet, 29; Phyllis, 23; Irene, 21; Marjorie, 19; Doris, 17; and Beryl, 15.

## No Waste Space On A Transport

Packed aboard with typical army efficiency, Yankee troops are shown, above, on a transport at an embarkation point "somewhere in the United States" as they settle down in a bunk room for a much-welcomed snooze before sailing. This photo was just released in Washington after the soldiers arrived safely at their destination.

## King Peter Visits Ottawa

King Peter of Yugoslavia, the monarch whose subjects are still fighting courageously against the Nazis, visited Ottawa. In this picture taken as the young King arrived in Ottawa, he is shown deep in conversation with the Earl of Athlone, Governor-General of Canada. Behind them, Rt. Hon. W. L. Mackenzie King is shown walking with members of the Royal party. King Peter's itinerary includes an inspection of Petawawa training camp and a visit to the R.C.A.F. air station at Uplands. The King lives in England where he is resident at Oxford University.

## No Trick At All

Beth Drake—the blonde Chicago beauty who is making such a hit in Hollywood—doesn't believe in leaving that trim figure of hers to luck. She keeps up her attendance at the Girls' National Athletic Association and does her daily calisthenics.

# Murder In Ferry Command

By A. W. O'Brien

CHAPTER X  
CLYDE DAWSON was reporting the ravages of his stormy sea-son with the ring in the Turk in his Chicago hotel when, at about 8 o'clock that night, a telephone call was plugged into the room. It was the chief agent of the F.B.I.

"Something of special interest for you, Dawson," he said. "Your good-looking girl friend boarded a Canadian Colonial Airways plane at LaGuardia Field in New York 20 minutes ago. Our Manhattan office wants to know if they'll have the plane redoubled back... it will be over American soil for about an hour—its regular evening flight for Montreal."

Dawson made no effort to conceal his excitement.

"No, let her go... I've a sudden hunch and want her to have a little more rope. My compliments to your Manhattan office—damn smart co-operation. One more favor, old man, the War Supplies Office must have a Traffic Routing Department. Would you use your authority to find out if the man in charge last night was, by chance, asked for any travel information by Carole Fiske?"

The G-man laughed outright at the end of the first of Mr. Dawson's requests.

"We're one jump ahead of you there—I was about to tell you that we have received a report on the very subject. It was a lucky guess—she actually did call up about

10:30 last night and asked about flying schedules...  
"Where is?"  
"This will tickle you—she asked for the best route to Newfoundland via Halifax."

"If that," Dawson murmured, "and the Traffic Routing office suggested that, due to existing flying conditions, the flight would be taken for New York 20 minutes ago."

"And the Traffic Routing office suggested that, due to existing flying conditions, the flight would be taken for New York 20 minutes ago."

"And the Traffic Routing office suggested that, due to existing flying conditions, the flight would be taken for New York 20 minutes ago."

inside because the girl is waiting with the other passengers...  
"Nice going," Dawson cut in, "go inside and tell the dispatcher she's for the take-off anytime, and I've gone directly to the plane. You hand in my ticket—they usually pick them up at the desk."

Dawson heard the flight announcement on the loudspeaker and saw the passengers lining through the door.

Carole Fiske came out alone. Dawson swung into side stride before she could get away.

"Hello," he said simply. Dawson glared at him in indignation as she recognized Dawson. But she quickly recovered her poise. Her hand slipped out of her muff and she held it close to her body. In it was a small, dark object.

"Don't try to stop me from taking this plane, mister, or you're a dead pigeon—I swear it!" Dawson laughed. "The surest way of missing your plane would be to shoot me here, sweetheart. Instead of trying to stop you, I'm actually making the jump in the next ten minutes, chummy."

The girl was obviously suspicious. Keeping the gun trained on him she hit it with her muff.

Very well, let's go the commanded in lowered tone. Dawson took her true arm and gave it a playful squeeze.

"Let's go," he echoed. "When they reached the side of the plane, Dawson saw the girl. She allowed her face and gave an almost imperceptible gesture with her hand for Dawson to mount the movable stairway first.

"Easy, Post wouldn't approve," grunted Dawson. On the second step he stepped suddenly as from the corner of his eye he caught a quick movement—a man had slipped up silently behind the girl and pinned her arms.

"Drop that gun," he snarled into her ear. It was the Montreal agent and Dawson had completely forgotten about him. Of course the agent had picked up the bit of side-drama outside the waiting room and... Dawson heard the hoarse, almost hysterical cry of the girl.

This was no time for delicacy. Dawson lunged forward, his right arm and leg, he punched hard and true over the girl's shoulder straight into the agent's face. The latter reeled back, stumbled and piled into the snow-drift. Dawson made a flying leap and landed squarely on the stunned man.

"Never mind the poke," Dawson roared. "Get up! You are drunk and you're going in for a little home-patrol."

Both men began grunting and laughing at they rolled. Dawson finally yelling in a tone of mock surprise.

"Enough... enough... you got me, Joe."

They rose to their feet brushing the snow off their clothes. Carole Fiske was obviously amazed but she took a quick glance at the crawling woman and moved her part.

"Come on, darling," she spoke impatiently. "The plane is waiting—let's go."

With apparent unfeignedness, Dawson followed up the steps, checked with the natives and sat down bravely in his seat. The girl and he had the two ends apiece.

She sat staring at him coldly. "Nice way to treat a Boy Scout pal doing his good deed," she commented cruelly. "But why did you wreck it?"

Dawson took from his pocket an object which he tossed at her lap. It was a small, dark, automatic.

"You dropped it outside," he said. "Now come again with the \$30 question."

Carole Fiske shoved the gun into her pocket. Frankly bewildered, she asked him why he wanted an excellent opportunity to turn the tables on me out there.

Dawson puckered his lips and tapped his fingers thoughtfully.

"Maybe it's because I like to see good-looking girls given a chance to achieve their ultimate ambition in life. You for example, you put me on the spot in Chicago, then you threaten to make me a dead pigeon out here—I never forgive myself if I don't let you kill me sometime. But, meanwhile... his tone changed, "if you start playing with that peashooter again I'll turn you over my knee. Understand, my little lamb?"

(To Be Continued)

13 Alberta Men Receive "Wings" At Two Schools

CAMP BORDEN, Ont., July 13.—(CP)—Air Vice-Marshal J. A. Sully, A.F.C., of Ottawa, yesterday presented pilot wings to graduates of the Royal Canadian Air Force training school here. Graduates included: Albert Clifford R. Abbott, Beverly; William A. Clark, Grande Prairie; Donald I. Craikbank, Robert B. Jones, Calgary; Rodney W. Davidge, Donald G. Dick, Edmonton; Jack D. Edwards, Ede; William A. Sullivan, Ede.

SASKATOON, July 13.—(CP)—Graduates receiving wings yesterday at the 13th Flying Pilot Training School of the British Commonwealth Air Training Plan included: Albert G. C. Findlay, High River; R. A. L. Borge, Calgary; B. W. Olson, Calgary; J. A. Paul, Fairview; D. J. Wells, Raymond.

Wins Commission LONDON, July 13.—(CP)—The Royal Canadian Air Force last night announced a commission of pilot officer had been granted during the week to H. B. Galt, Stettin, Al.
